PROFESSIONAL SUMMARY

Senior Full Stack Developer with 6+ years of experience architecting scalable, AI-integrated web applications using Express.js, React.js, MySQL and Node.js. Specialized in building real-time AI features with OpenAI API, Whisper STT/TTS, and Twilio. Delivered 15+ production-grade SaaS products serving 50K+ users with 40% improved performance. Expert in TypeScript, Microservices, REST APIs, and cloud deployment on Azure/AWS. Proven track record in Agile delivery, system design, and leading cross-functional teams to build reliable, user-centric applications.

CORE COMPETENCIES

Hard Skills -

Full-Stack Architecture, RESTful API Development, AI Integration (OpenAI/Whisper), Cloud Deployment (AWS/Azure), Database Management (MongoDB/MySQL), Automated Testing (Jest/RTL).

Soft Skills -

Cross-Functional Leadership, Agile Collaboration, Problem Solving & System Troubleshooting, Technical Mentorship, Client Communication, Time Management.

TECHNICAL SKILLS

AI & Integrations -

OpenAI API, OpenAI Realtime API, Whisper, Twilio, Payment Gateway

Frontend -

React.js, Next.js, TypeScript, JavaScript ES6+, Redux, Tailwind CSS, HTML5, CSS3, Material UI, Bootstrap.

Backend -

Node.js, Express.js, REST APIs, JWT Authentication, PHP

Databases -

MySQL, MongoDB.

Cloud & DevOps -

Azure, AWS, Docker, GitHub, CI/CD, Vite.

Architecture -

Microservices, SOLID Principles, Design Patterns, OOPS, MVC.

Testing -

Jest, React Testing Library, XUnit.

CMS -

Drupal, WordPress, Shopify, Laravel, CodeIgniter.

WORK EXPERIENCE

Full-Stack Developer | Simpalm | Oct 2023 – May 2026 | Remote | US Client-facing-

- **Projects Undertaken:** 8+ Enterprise SaaS Applications, AI-Powered Voice Assistant Platform, and Responsive Enterprise Dashboards.
- Served as a **Team Lead**, providing technical direction, task allocation, code reviews, mentoring, and day-to-day guidance to a team of frontend and full-stack developers.
- Architected and delivered 8+ enterprise SaaS applications using MERN stack for US-based clients, serving 20K+ monthly active users
- Developed secure RESTful APIs with Node.js + Express.js + JWT handling 500K+ monthly requests.
- Built AI-powered Voice Assistant Platform using OpenAI Realtime API, Whisper STT/TTS, and Twilio with <200ms latency
- Engineered responsive enterprise dashboards with React.js, TypeScript, Redux, AG Grid, reducing data load time by 35%.
- Led cloud deployment and monitoring on Azure/AWS, implementing CI/CD pipelines and achieving 99.9% uptime.
- Implemented unit testing using Jest and React Testing Library, improving code reliability by 25%.
- Collaborated with cross-functional teams in Agile environment and mentored 2 junior developers.

Front-end Developer | IT Bird's Technology | Feb 2020 – Sep 2023 | Indore Madhya Pradesh, India-

- **Projects Undertaken:** 12+ Responsive Web Applications for Global Enterprise Clients.
- Crafted 12+ responsive, high-performance web applications using React.js, JavaScript, HTML5, and CSS3 for diverse global clients.
- Integrated complex third-party REST APIs and optimized frontend asset delivery, boosting Google Lighthouse performance scores by 30%.
- Constructed modular, reusable UI components adhering strictly to Object-Oriented Programming (OOP) concepts and industry coding standards.
- Contributed extensively to backend API integration cycles, relational database structural design, and collaborative Agile sprint planning sessions.

HIGHLIGHTED PROJECTS

AI-Powered Voice Assistant Platform | React, Node.js, OpenAI API, Whisper, Twilio-

- Built full-stack platform for live call handling with real-time AI responses and transcription display.
- Integrated audio streaming and achieved <200ms response latency for 1000+ daily sessions.

Organization Registration & Service Portal | React, Node.js, TypeScript, Tailwind CSS-

- Developed multi-step onboarding process for 10K+ users with dynamic validation and role-based access.
- Built reusable UI components reducing development time by 20%.

Parent Dashboard - Enrollments & Billing | React, Node.js, AG Grid, Express.js-

- Created dashboard to manage 5000 + enrolment records and billing with optimized grid rendering.
- Improved data load performance by 30% and integrated chart visualizations.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science [RGPV University] | 2019

KEY ACHIEVEMENTS

- Delivered 15+ production websites and applications with 99.9% uptime
- Integrated AI features that increased user engagement by 40%
- Reduced application load time by 35% through code optimization
